

### **Supply Chain & Procurement Internship:**

The Nestle USA Supply Chain & Procurement Internship Program provides a meaningful, 10-12 week paid summer internship to high-performing college students who are interested in a Supply Chain, Logistics, or Procurement career. Interns are assigned substantive projects and receive developmental feedback to gain a better understanding of the role and importance of Supply Chain & Procurement within Nestlé. At the end of the program, interns will have an opportunity to present the results of their project(s) to senior leadership. Upon successful completion of the internship, interns will be considered for full-time employment at Nestle in the Supply Chain & Procurement Development Program.

### **Past Project Examples:**

- Research the root cause of packaging write-offs for specific products and examines possible drivers, such as: specific factories, seasons, brands, segments, new items, and customer specific items
- Evaluate and determine how much product, in dollars, goes unreported in salvage reports and, understand the cause of the amount of salvage/wasted goods and offer suggestions on how to reduce this amount
- Perform a spend analysis across North and South America for selected ingredients and present opportunities to key stakeholders in the business.
- Complete a competitive bidding process using the strategic sourcing strategy and recommend business awards.
